Leading Turfmen Deem Leigh's Punishment Too Harsh.

LITTLEFIELD'S GOOD RIDING.

Withdrawal of Cracks a Disappointment to Race-Goers.

There are many people who are inclined to take exception to the Brighton Beach Assostation's action in warning Eugene Leigh's porses from the track. Several turimen of prominence spoke to the writer yesterday and complained that the ruling was bareh and that the owner should not be punished for the sins of the jockey. One gentleman Yesterday she went to Vineyard Haven aground in such a change of the result of the res said: "I know for a fact that Leigh wants time and again that Martin had thrown him lown. At such times I urged Leigh to lay the matter before the judges, but he was always in favor of giving Martin another The report has caused a great deal of anxchance. I am sure that if there was any crookedness on foot on Wednesday that Leigh was not a party to it. On July 4 Leigh told me and several friends to back Eleanor 1-2-3. He said the mare was fit and could win, but that she would be third sure. We did so. Martin rode her and he never made an effort to win, finishing fourteenth. Leigh feit very bad, and had no hesitation in say-ing that Martain had again thrown him Jown. The mare started a few days after wards with young Leigh up, and ran in her

true form, finishing a good third." All of the above may be true, but in nine cases out of ten where a jockey does crooked work the owner is cognizant of it. If Martin repeatedly threw Leigh down then it was this turfman's business to get rid of such a jocker, Henry Woodruf, Twenty-third to shown that the embezziements reach the condomnan John G. McNally. First enormous sum of £150,000. will calmly stand by and see his jockey pull horses without saying a word. Mr. Leigh may be blameless in the matter, but appearances are against him, and that is the only evidence the judges had on which to base

their rulings. Racegoers journeyed to Monmouth Park yesterday expecting to see that crack West-ern filly, Helen Nichols, meet the cracks of the East, and to see The Pepper meet Merry the Hast, and to see The Pepper meet Merry Monarch, Mars, Sir Matthew and others in the Stockton Stakes. In both they were disappointed. Helen Nichols and The Pepper were withdrawn from their respective races. While the Association is in all probability in no way to blaine for the withdrawal, yet it is bound to hurt their attendance in the end. Cracks are advertised to meet daily, and races are spoiled because some weak-hearted owner fears he will be beaten. People can place no sort of confidence in the programment of the Monmouth Association does not take steps to prevent indiscriminate scratching. Owners began to play at this sort of a game at Guttenburg last Winter. The Association promptly made a rule which made it cost owners to per cent. of the purse to scratch, unless some accident had made it impossible for the horse to race. The Monmouth management might, without adopting any such rule, compel owners to remain in unless their horses are sek or alling. Then owners would not enter without having the slightest intention of starting, and one could be reasonably sure that the horses advertised as starters on the programme would start. As the matter now stands the wholesale scratching gives people the impression that the card is being "padded."

The Law and Order League, having secured ample evidence against the Monmouth Park Association, has probably retired for the season.
